## NUTRITION AND ALLERGEN GUIDE

### INTRODUCTION

To try and help our customers make the right choice we publish nutritional information for calories (kcal) and saturated fats (grams) on the pricing labels for “loosely” sold items as well as the relevant 14 key symbols for allergens.

For pre-packaged items e.g. crisps, chocolate bars and cake bars, the required information is available on the back of pack.

### NUTRITIONAL INFORMATION

Nutritional information is provided per portion.

The data on the following Nutritional information is available for each product that we sell in the following pages:

Energy and kcal, Fat, Saturated Fat, Carbohydrates, Sugar, Protein and Sodium.

### Drinks

Please note that all our drinks nutritional information has been calculated using published available data. Milk based drinks have been calculated using fresh semi-skimmed milk may be subject to some natural seasonal variation.

Coffee drinks are calculated using the Coffee Republic Italian Blend (caffeinated) made to our brand standard.

*Please note: Information for decaffeinated coffee will be the same.*

# ALLERGEN INFORMATION

We fully understand that allergic reactions can make some people very ill and in extreme cases may lead to death. We want to do our best to make sure our customers don't consume the foods and drinks they are allergic to. We can't guarantee our food is suitable for those with allergies, but to make things as easy as possible, we've put together this handy guide with information about any allergens contained within our products.

Please remember to check our guide regularly as recipes do change from time to time.

We list the presence of the following allergens in our food and drinks: Eggs, Milk, Fish, Crustaceans (like crayfish), Molluscs (like mussels, oysters & squid), Peanuts, Tree Nuts, Sesame, Cereals Containing Gluten (these are wheat, rye and barley), Soya, Celery & Celeriac, Mustard, Lupin, Sulphur Dioxide and Sulphites.

*NB: We have taken all reasonable steps to ensure that the information provided within the tables is accurate. However, please note that whilst we take as much care as possible in our in-house kitchens we cannot rule out the risk of cross contamination. The allergen status of products may change once displayed or heated.*

*Your statutory rights are not affected.*

# ALLERGEN INFORMATION

Allergy data detailed in the tables has been derived from technical specifications obtained from the suppliers of the products.

'No' means that the allergen is not part of the product.

'Yes' means that the allergen is present and indicates that the product is therefore not suitable for a customer with an allergy or intolerance to it.

Dairy includes all products containing milk or milk derivatives e.g. cheese, butter, yoghurt.

The Nut column indicates the presence of the following; almonds, Brazils, cashews, hazelnuts, macadamias, pecans, pistachios, walnuts & their respective derivatives.

## Vegetarians/Vegans

The 'Yes in the column means suitable for Vegetarians/Vegans'.

### Key

#### *Allergens Column*
